- Central business district
analysis of decline factors 169-173
see also Central place theory
- Central place theory
an analytical framework
relationship between population size
and central function 15
see also Central business district; Hous-
ing; Industrial development
- Colombia
analysis of strategy for land reform 367-376
- Commercial campgrounds
growth factors, public vs. private parks 188-190
- Cost-benefit analysis
see Housing; Kalamazoo River; Michigan;
Mortgage rates; Nepal; Pollution abate-
ment
- D
- Demography
see Central place theory; Industrial devel-
opment; Population shifts; Suburbaniza-
tion
- E
- Economic base multiplier
new industry in rural area: case study,
Kentucky 329-337
- Economic expansion potential theory
programmed model: water resource
growth 104-113
see also Water resources
- Economic policy
essay on conflict with economic theory 248-268
- Economics
an ecologically oriented approach
ecological balance concept 205-208
stationary state concept 206-208
- Economies of scale and market size (model) 297-300
- Employment
recruitment strategy in black ghetto 273-276
- Environmental studies
case study (South Carolina) quality pro-
tection elements 70-72
office parks 65-69
see also Economics; Flood control; Indus-
trial development
- F
- Federal housing policies
subsidized production
costs and effects since 1968 310
housing and occupancy characteristics 314
improvements and filtration process 316
- Federal land ownership
policy issues related to regional depend-
ency 150-159
see also Ownership of land
- Flood control
see Kalamazoo River; Municipal water
demand

- H**
- Highway Act of 1956
see Shopping center developers
- Home ownership
 financial assumptions re low-income purchases
 accessibility of information 137
 high risk factors 137
 investment advantages 135
 quality of property available 136
 tax savings 141
